INFO: pip is looking at multiple versions of langchain to determine
which version is compatible with other requirements. This could take
a while.
```

```
The conflict is caused by:
  The user requested langchain-core==0.2.20
  langchain 0.2.11 depends on langchain-core<0.3.0 and >=0.2.23
```

```
Additionally, some packages in these conflicts have no matching
distributions available for your environment:
  langchain-core
```

```
To fix this you could try to:
1. loosen the range of package versions you've specified
2. remove package versions to allow pip to attempt to solve the
dependency conflict
```

```
Note: you may need to restart the kernel to use updated packages.
```

```
ERROR: Cannot install langchain-core==0.2.20 and langchain==0.2.11
because these package versions have conflicting dependencies.
